

Mann Patel

Green Bay, WI | ✉ Patem01@uwgb.edu | (920)-305-2617 | GitHub: MannPatel8284

Profile Summary

Computer Science student seeking an internship in software development or Data Science. Experienced in developing data-driven solutions, automation scripts, and practical applications through hands-on projects. Strong understanding of Data Structures, Algorithms, and Database Management Systems (DBMS). Passionate about applying problem-solving skills and innovative thinking to real-world challenges. Committed to learning, growth, and delivering efficient and impactful solutions.

Education

University of Wisconsin - Green Bay, Green Bay, WI

B.S. in Computer Science – Artificial Intelligence & Data Science Emphasis | Expected Graduation: May 2028

Experience

Software Developer | SaiKet Systems | Remote | Dec 2025 – Jan 2026

- Developed innovative software and web solutions using Python, MySQL, and contemporary technologies
- Designed user-centric interfaces to enhance usability and user experience
- Collaborated with cross-functional teams on debugging, testing, and software development lifecycle (SDLC)
- Gained hands-on experience in full-stack development and agile methodologies

Projects

Motion Detection Security System – Python | OpenCV | SMTP

- Developed intelligent motion detection system using OpenCV for real-time video monitoring
- Implemented automated email notifications with video attachments when motion is detected
- Built video recording functionally triggered by motion events with configurable sensitivity
- Tools Used - Python | OpenCV | SMTP | Video Processing

Student Management System – PyQt6 | SQLite3

- Desktop application enabling CRUD operations on student records with PyQt6 and SQLite
- Features include student registration, searching, updating, and deletion with user-friendly GUI
- Tools Used: Python, PyQt6, SQLite

Python To-Do App – Tkinter GUI

- User-friendly desktop application for task management with add, edit, complete, and delete functionality
- Lightweight application with simple and interactive GUI for daily organization and productivity
- Tools Used: Python, Tkinter (built-in GUI library)

Technologies

Programming Languages: Python, SQL, JavaScript, C++, Java

Frontend: HTML, CSS, React.js

Backend: Python (Django)

Database: MySQL, SQLite

Version Control: Git, GitHub

Achievements & Certifications

- Completed Python for Data Science certification by NPTEL
- Completed the SQL Mastery Course on Udemy, mastering SQL queries and database management
